Diploma in Multimedia

Xplora Design Skool | 2006 – 2007

BSc Mathematics (Not Completed)

Calicut University | 2009 – 2012

Higher Secondary Education

GGHS Balussery, Kozhikode | 2004 –
2006

SSLC

Kuttamboor High School, Kozhikode |
2004

Experience

Neviton Softech Pvt Ltd, Bangalore | Jan 2022 – Mar 2025

Worked as a **Product Designer** for **Neviton**, supporting **Arcolab Pvt Ltd** as a
client. Sole designer for pharmaceutical enterprise applications, responsible for
BRD analysis, UX/UI design, stakeholder collaboration, and translating business
requirements into functional solutions with development teams.

Digiverse – Validation & Document Management Platform

- Designed workflows and user experiences for document creation and lifecycle
management, validation execution, compliance tracking, and audit readiness
aligned with GxP and FDA regulations.
- Created a configurable platform architecture and customizable UI/theme
system, enabling adoption across multiple industries beyond pharmaceuticals.
- Designed a companion mobile application for equipment inspections, enabling
on-site data capture through scanning and automated recording into
validation documents and CSV workflows.
- Simplified complex validation processes and legacy workflows, reducing
cognitive load and improving user efficiency.
- Built reusable design systems, component libraries, and interactive prototypes
to ensure consistency and scalability.
- Contributed to replacing the legacy ValGenesis solution, helping save
approximately ₹1.5 Crore annually in licensing costs.
- Enhanced product appeal and customer adoption through a modern, user-
centric experience and flexible configuration capabilities.

Inlumin - Vendor & Shipment Management Portal

- Designed a vendor and shipment management portal built on top of SAP data,
streamlining vendor onboarding, shipment tracking, purchase orders, invoices,
and letters of credit.
- Simplified complex workflows by consolidating information from multiple
systems into a unified and intuitive user experience.
- Reduced user effort and process complexity by improving navigation,
information architecture, and workflow efficiency.

Timesheet Application

- Improved user experience by replacing complex multi-step workflows with a
calendar-based interface for faster and more efficient time entry.
- Introduced a one-click timesheet entry experience with pre-filled engagement
and client details assigned by administrators or project managers.
- Designed streamlined workflows that enabled employees to easily add, edit,
and manage timesheet records with minimal effort.

Golanzer – Product Launch & Roadmap Planning Platform

- Designed a roadmap and milestone management platform to support planning
and execution of pharmaceutical product launches.
- Simplified complex planning processes through visual dashboards and
structured progress tracking.

Hindi: Read, Write, Speak
Tamil: Speak

Accelero – Early Childhood Education Management

- Designed user interfaces and workflows for collecting and managing data from parents, caregivers, and teachers to monitor child development and learning outcomes.
- Supported the creation of dashboards and data visualisation experiences to help track child progress and program performance.

Quest Global, Bangalore | Mar 2020 – Dec 2021

Worked as a **UI/UX Designer** and **Developer** at **Quest Global**, supporting **Reliance Jio** as a client.

- Independently developed and maintained the **www.jiogames.com** website and Developer Portal, ensuring responsive design, performance, and seamless user experience.
- Created Hi-fidelity wireframe and prototype for “**Jiopages**” **QWERTY OS**.
- Contributed to the redesign of **JioMessages** by identifying user pain points, ideating experience improvements, and creating dark and classic theme mockups and interactive prototypes.
- Designed UX flows, UI screens, and interactions for **JioTelematics**.
- Designed creatives and promotional thumbnails for **Jio STB**.

HouseJoy.in PVT Ltd, Bangalore | Aug 2018 – Oct 2019

Worked as a **UI Developer** for **Housejoy**, a home services platform enabling users to book professionals such as electricians, plumbers, beauticians, and other on-demand services.

- Developed and maintained responsive user interfaces for web and mobile applications using HTML5, CSS3, SASS, JavaScript, and React.js.

InCyder Media Labs, Kerala | Aug 2015 – Nov 2017

Worked as a UI/UX Designer and Creative Contributor.

UpWork Inc (Freelance Website) | 2013 – 2015

Managed UI/UX design projects for international clients, delivering high-quality solutions on time while maintaining a **4.7-star** rating on **Upwork**.

4W Technologies PVT Ltd, Chennai| Jul 2012 – Aug 2013

Designed and maintained UI/UX solutions for web applications serving domestic and international clients, while creating branding assets, marketing creatives, and visual design materials.
