Professional Summary

Senior UX Designer, Product Designer, and UX Engineer with 11+ years of experience designing enterprise platforms, operational systems, and scalable digital products across web and mobile applications. Skilled in UX strategy, interaction design, workflow optimization, design systems, frontend implementation, and AI-assisted product development with expertise in creating intuitive, user-centered experiences for enterprise and product-based applications.

Experienced in collaborating with cross-functional teams including product managers, developers, and stakeholders to simplify complex systems, improve usability, and deliver scalable digital solutions. Strong background in enterprise UX, dashboard design, responsive interfaces, accessibility standards, validation workflows, and frontend development.

Actively exploring and building AI-driven digital products using modern AI tools, rapid prototyping workflows, and emerging design-to-development approaches. Comfortable leveraging AI-assisted workflows, no-code/low-code experimentation, and vibe coding practices to accelerate product ideation, UX validation, frontend development, and product innovation in the evolving AI ecosystem.

Core Competencies

- UX Design & Product Design
 - Enterprise UX & Design Systems
 - User Flows & Workflow Optimization
 - Wireframing & Prototyping
 - Dashboard & Data-heavy UX
 - Accessibility & Responsive Design
 - Frontend Development
 - AI-assisted Product Development
 - AI Workflow Integration & Vibe Coding
 - Cross-functional Collaboration
-

Tools & Technologies

Design Tools

Figma, Adobe XD, Adobe Photoshop

Frontend Technologies

HTML5, CSS3, SASS, JavaScript, jQuery, React.js, Next.js, @mui, Cursor, Antigravity

Development & Collaboration

Git, VS Code, Jira

Professional Experience

Senior UX Designer & Frontend Developer

Neviton Softech Pvt Ltd, Bangalore | Jan 2022 – Mar 2025

- Led UX design and frontend implementation for enterprise web applications and operational platforms.
- Designed scalable workflows, approval systems, validation states, and dashboard experiences for complex business operations.
- Simplified enterprise user flows using structured information architecture and interaction-focused UX strategies.
- Collaborated with stakeholders, developers, and product teams to align UX solutions with business and technical goals.
- Developed responsive frontend interfaces optimized for accessibility, usability, and cross-device consistency.
- Contributed to product strategy discussions and system-level UX improvements across enterprise modules.

UI/UX Designer & Developer

Quest Global Engineering Services Pvt Ltd, Bangalore | Mar 2020 – Dec 2021

- Worked on enterprise applications and telematics-related operational platforms for Reliance Jio as part of the Quest Global product and UX team.
- Created low-fidelity and high-fidelity wireframes, user flows, and scalable UI systems for web and mobile applications.
- Improved workflow usability and interaction consistency across operational platforms.
- Collaborated with cross-functional teams to translate business requirements into intuitive digital experiences.
- Developed responsive frontend interfaces aligned with accessibility and usability standards.

UI Developer

HouseJoy.in Pvt Ltd, Bangalore | Aug 2018 – Oct 2019

- Developed and maintained responsive user interfaces for websites and mobile platforms using HTML5, CSS3, SASS, JavaScript, and React.js.
- Improved frontend consistency through reusable UI components and scalable layouts.
- Collaborated with designers and developers to optimize user experience and frontend performance.
- Supported mobile-first and responsive design implementation across service-based platforms.

UI/UX Designer & Creative Contributor

InCyder Media Labs Pvt Ltd, Kerala | Aug 2015 – Nov 2017

- Designed user-centered web and mobile interfaces for client projects across multiple industries.
- Created wireframes, interaction flows, visual systems, and responsive UI designs.
- Worked closely with development teams to ensure accurate implementation of UX and UI specifications.
- Contributed to branding, creative direction, and digital product design initiatives.

Freelance UI/UX Designer

Upwork | 2013 – 2015

- Delivered UI/UX design solutions for international clients across web and mobile platforms.
- Managed multiple projects independently while maintaining strong client communication and delivery timelines.
- Maintained high client satisfaction through consistent execution and user-focused design solutions.

UI/UX Designer

4W Technologies Pvt Ltd, Chennai | Jul 2012 – Aug 2013

- Designed and maintained user interfaces for web applications serving domestic and international clients.
- Created responsive layouts, graphics, and digital experiences aligned with usability standards.
- Collaborated with development teams to deliver functional and visually consistent interfaces.

Featured Projects

Enterprise Timesheet Platform

- Designed workflow-driven timesheet management interfaces with approval systems, validation flows, and operational dashboards.
- Improved visibility and usability for employee submission tracking and managerial approval processes.
- Applied systems thinking principles to simplify enterprise workflows and reduce operational friction.

Pharma DMS / VMS Platform

- Designed centralized document management and vendor management workflows for pharmaceutical operations.
 - Created structured dashboard systems, approval mechanisms, and validation flows to improve operational efficiency.
 - Simplified complex enterprise processes through scalable information architecture and interaction-focused UX design.
-

Education

Diploma in Multimedia

Xplora Design Skool | 2006 – 2008

BSc Mathematics (Not Completed)

Calicut University | 2009 – 2012

Higher Secondary Education (Plus Two)

GGHS Balussery, Kozhikode | 2004 – 2006

SSLC

Kuttamboor High School, Kozhikode | 2004
